

# Everio

## Three One-Touch Solutions to Share and Carry Your Videos

### One Touch Upload to YouTube™

You can easily upload your videos to YouTube™ and share them with the world. Everio makes uploading a breeze. Share your memories with family or friends living far away.

USB 2.0

PC

**One Touch Pre-upload Recording for YouTube™**  
When the UPLOAD button is pressed before recording, this automatically limits recordings to 10 minutes in length to keep them within the YouTube™ file size limit. Smart and convenient.

1. Connect to a PC with the provided USB cable.
2. Press "UPLOAD" and software launches automatically.\*
3. Data is converted and uploaded to YouTube™.

### One Touch Export

Wouldn't you like to carry special moments with you all the time, on your iPod®? With Everio, that's simple. The videos and photos you've taken can easily be added to your iTunes® library. Then sync your iPod®/iPhone® and carry!

USB 2.0

PC

iPod®/iPhone®

1. Connect to a PC with the provided USB cable.
2. Press "EXPORT" and software launches automatically.\*
3. Data is converted and imported into your iTunes® library.

### One Touch DVD Creation

One Touch Creation

With Everio, archiving your videos onto disc is also a one-touch operation.

Use the PC or optional SHARE STATION DVD Burner, and you can burn DVDs from Everio's recordings. With an HD Everio model, you can even archive your Full HD video files on DVD discs (AVCHD DVD) and Blu-ray discs.

USB 2.0

PC

SHARE STATION

1. Connect to a PC or SHARE STATION with the provided USB cable.
2. Press "DIRECT DVD" or "DIRECT DISC".
3. With PC: Software launches automatically\*, then just follow a few simple steps. With SHARE STATION: Just follow instructions on Everio's LCD. Burning starts and you're done!

\* Installation of bundled software required.
